

# DABL SERIES

## AUTOMATIC ASEPTIC PLASTIC BOTTLE FILLING CAPPING/LIDDING MACHINE

MODEL	DABL12/12C	DABL24/24C	DABL32/32S
Bottle Material	PET, HDPE/EVOH/HDPE/etc		
Capacity (bottles/hour)	10,000 ÷ 12,000	20,000 ÷ 24,000	32,000 ÷ 36,000
Filling Temperature	4 °C ÷ 25 °C		
Filling Volume	60 ÷ 1250 ml		60 ÷ 200 ml
Max Bottle Dimension	Max Diameter: Ø82 mm Max Bottle Height: 240 mm		Max Diameter: Ø60 mm Max Bottle Height: 200 mm
Sealing Method	Plastic Screw Capping		Aluminum Lid Hot Sealing
Sterilization Method	Dry Method Sterilization with Hydrogen Peroxide		
Sterilization Efficiency	≥ 5 log		
Filling Heads	12	24	32
Sealing Heads	12	24	32

### KEY FEATURES

- ☑ Suitable for a wide range of liquid foods, including UHT milk, ambient yoghurt, fresh milk, dairy beverages, milk tea, tea drinks, fruit juice, coffee, and similar.
- ☑ Closure by pilfer-proof cap or precut aluminum lid.
- ☑ Advanced preform dry method sterilization technology and linear architecture, with optional fruit filling.
- ☑ The machine features: bottle input, bottle transfer, bottle sterilization, aseptic filling, cap sorting, cap sterilization, servo capping and product output.
- ☑ One-key quick changeover for different bottle necks' width.
